

Glad to Recommend Fruitola and Traxo

Mrs. Norforth Says She Suffered with Gall-stones for Several Years without Relief.

In a letter to the Pinus laboratories Mrs. Rosa Norforth, Monticello, Ill., says: "I cannot praise Fruitola and Traxo too highly as I consider it saved my life. I suffered with gall-stones for several years and could not get any relief until your preparation was recommended to me. It has been six months since I took the last bottle and I feel that I am entirely well. Have anyone doubting the merit of your preparation write me as I will be only too glad to recommend Fruitola and Traxo to anyone suffering from gall-stones."

MRS. ROSA NORFORTH

dent to the derangement of the digestive organs.

In the files of the Pinus laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fruitola and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Clarksburg Fruitola and Traxo can be obtained at

RESOURCES OF TURKEY ARE VERY GREAT

And the Greatest Need There is An Economic Policy, Declares a Banker.

CONSTANTINOPLE, Sept. 3.—A banker of considerable prominence in Constantinople has given the Associated Press correspondent some idea of what may be accomplished in Turkey in event of the war having a favorable outcome for the Turks. Although the banker stipulated that his name should not be used at this time, his position and knowledge of the country are such that his statements, even appearing anonymously, may be considered as of unusual importance.

Discussing the essentials that would make Turkey a strong and self-contained political unit after the war, he said at the outset that what Turkey needed today most was an economic policy that would leave something for coming generations. In other words, exploitation would have to cease.

"The undeveloped resources of the Ottoman empire are enormous," he continued. "Turkey, for instance, could meet the entire grain shortage of Europe, if its soil were adequately tilled and marketing facilities provided. Turkey could supply all of Europe with fruit, and ship fully one-half of the meat now imported by European countries from south and North America, Australia and New Zealand. The intelligent cultivation of cotton would place Turkey next to the United States as a producer of the staple. The olive oil industry could be increased a thousand times. More wool could be exported. Ports of Anatolia and Syria are especially suited for the raising of plants of great medicinal value. Even coal of fair value could be shipped to the Mediterranean countries."

Stable Policy Needed. Before any of these things could be made possible, however, said the banker, the Ottoman government would have to realize that that a stable economic policy was necessary. Some of the young Turks had already arrived at such a conclusion, but little had been done even by them, he asserts.

"But we must be patient. It is hardly two years now since the Turks themselves have taken to work. Up to that time the Turks held the erroneous notion that work was not particularly ennobling, that work, after all, was for others—Kurds, Greeks and Armenians. With the Turks holding the reins of government, this view could lead but to one result—a total lack of sound economic thought. Whatever was done had as its objective, exploitation of a most ruthless nature ensued. Under this system the splendid forests of Turkey were destroyed; the peasant was taxed to death and given no opportunity to improve either himself or his land; honest investors were kept out of the country, with the result that Turkey today has no industries, and is obliged even to ship its olive oil to Italy for refinement. The absence of all economic understanding on the part of those in power under the old regime was appalling. Those wishing to establish themselves in some industry or business in Turkey were usually asked to pay for the privilege in the form of a bribe to some official."

"Already conditions have improved but there is much room for betterment yet. But I am not one of those who maintain maliciously, I think, that the Turk is constitutionally averse to progress. He simply does not, as a rule, understand that what benefits others, will benefit him. The Turk is suspicious of all strangers."

WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."—Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."—Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.
